

Towards a safer world

**DIFFICULT AIR TARGETS. DIFFICULT SURFACE TARGETS.  
OUR AESA RADAR TECHNOLOGY WILL FIND THEM.**

At the forefront of European AESA technology, our fire control radar systems are paramount to detecting slow or high speed evasive targets on the ground or in the air. SELEX Galileo provide aircrew with the capability to make the right operational decision at the right time.

**Reaching new heights in air dominance. Tomorrow's technology is here today.**
