

SUPPORT & SERVICE SOLUTIONS (S³)

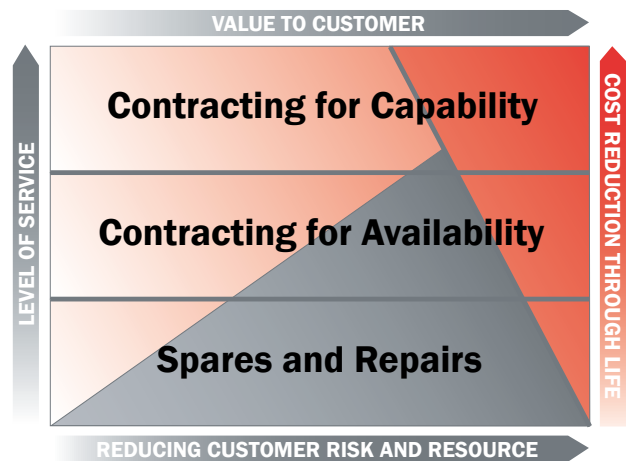

SELEX Galileo provides Support and Service Solutions (S³) for a wide range of military and civil applications.

In response to the changing defence environment, SELEX Galileo's S³ are focussing on the Company's international capabilities in delivering innovative commercial arrangements with through-life solutions to the Customer.

SELEX Galileo designs bespoke solutions for existing or newly conceived customer operations, which improve the overall outcome and reduce operating costs.

The Company has an established reputation for support and engineering excellence grounded in products and systems that have seen demanding service, many for over 50 years.

Our portfolio of customers include government departments, platform manufacturers, repair and overhaul companies, OEMs and many international support and supply agencies.

Customers derive value from bespoke support services that provide reduced cost, improved availability and lower risk.

24 x 7 mission ready systems

INTERNATIONAL AVIONICS AND DEFENCE ELECTRONICS SUPPORT

- We work closely with our customers to develop innovative solutions that optimise their electronics systems availability and capability
- Support solutions are aligned with our Customers organic capabilities, budgets and operational requirements
- International experience in the defence industry provides an understanding of the challenges in the highly demanding and rapidly changing military sector.

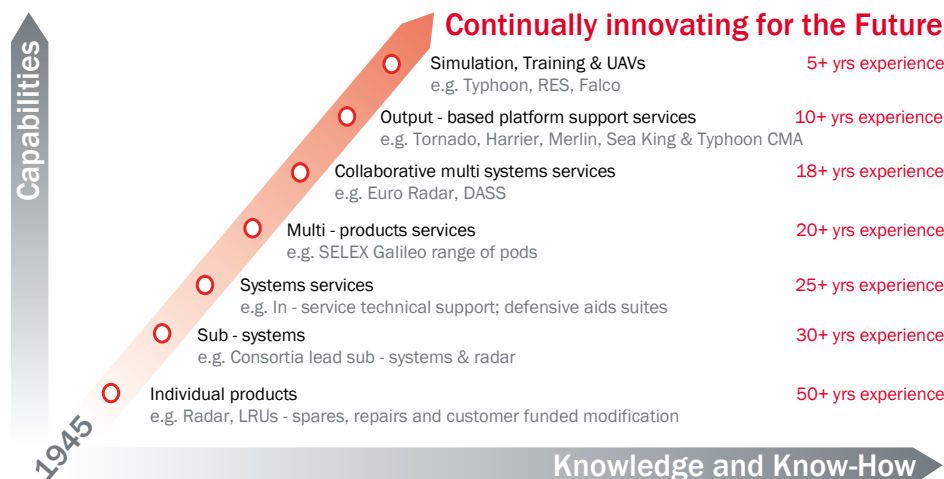

EXTENDED FOOTPRINT OF CAPABILITY

- As part of the Finmeccanica Group, our solutions draw upon a Community of Capability
- Fully managed service or knowledge transfer providing 24 x 7 mission ready systems
- Service capabilities support multiple platforms across air, land and sea.

AN ENVIABLE PEDIGREE

- 50 years of engineering excellence working in collaboration with military customers
- We are proud of our integrity and reputation as a trusted, high quality electronics solutions provider
- We operate at the forefront of international industrial alliances and collaborations.

50 + YEARS OF EXPERIENCE

CUSTOMER RECOGNITION

“Merlin project team and industry partners selected for a CDM commendation.”

Sir Kevin O'Donoghue KCB CBE, Chief of Defence Materiel.

“Your personal involvement in PAF support activities has proved to be a catalyst in improving the overall radar service-ability in PAF.”

Muhammad Salman, Air Commodore Pakistan Air Force.

“The SKIOS programme has been tremendously successful, receiving a MoD award and acclaim from the National Audit Office as a blue print programme for availability contracting. It has met or exceeded all of its output performance requirements while delivering 20% savings.”

Lieutenant General Andrew Figures, Deputy Chief of the Defence Staff.
